

TALINOR COMPLETE LIFTS

EQUIPPED WITH TALINOR
CONTROLLERS AND SUPPORTED
DIRECTLY BY TALINOR

TALINOR

About us

Talnor focuses on supplying quality lift products and machinery to the UK lift industry.

Our combined management team has over 50 years of experience designing, manufacturing and supplying lift products to the industry worldwide.

The priority requirement of the lift industry is high product reliability.

Any fault, no matter how minor, requires sending trained personnel to attend to the faulty lift resulting in high cost and wasted time, for this reason, all of our products are designed, manufactured and tested in-house and undergo a stringent Quality Assurance process prior to shipment. This way we can be certain that the products we supply display maximum reliability.

As suppliers of mechanical parts, we only supply machinery from companies with a long standing track record of quality production and a reputation of excellent, reliable service to the lift industry.

As experienced vendors to the lift industry, we are acutely aware of the importance of after sales service, and provide a complete after sales support service which includes real-time, online telephone assistance and rapid repair times.

It is our policy to keep our products in stock to ensure that we respond to customers' orders promptly and efficiently.

TALINOR COMPLETE LIFTS

EQUIPPED WITH TALINOR CONTROLLERS AND
SUPPORTED DIRECTLY BY TALINOR

We supply complete lift packages for diverse lift projects
All types of lifts are available and special mechanical designs are possible.

HYDRAULIC LIFTS
TRACTION LIFTS
MRL LIFTS
GEAR\GEARLESS
TALINOR CONTROL PANEL

TRACTION LIFTS

- Lifts up to 32 floors, up to 2.0 m/s
- Gear or gearless from outstanding European lift manufacturers
- MRL or Machine Room
- Variety of car interiors selection available
- Car with full height stainless steel COPs and robust pushes
- TFT or Dot-matrix position indicators
- LED or Fluorescent lighting
- DDA compliant lifts (optional)
- Built-in on board modem for remote support
- Equipped with Talinor control panel
- Quick commissioning and support directly from Talinor
- After sales support and advice with rapid response time
- Lifts incorporate Talinor control panels and Talinor equipment
- Wiring – all plug and play, serial or parallel
- Lifts come with on board Modem for remote support
- Powerful fault finding software
- Standard low cost lifts are available

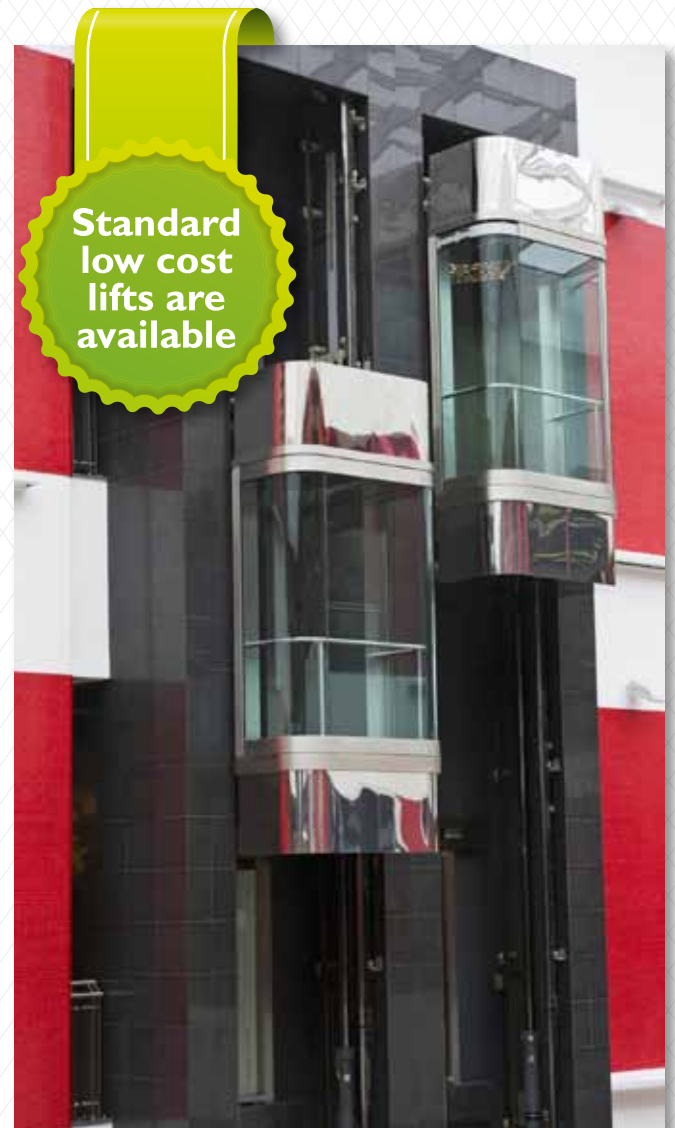

Standard low cost lifts are available

Every lift project is handled from order to supply by Talinor's specialist lift engineer team, and undergoes strict quality assurance control to ensure you get what you want.

HYDRAULIC LIFTS

- All application, passenger lifts, goods lifts, car lifts and more
- Lifts up to 8 floors, up to 1.0 m/s
- Power unit and piston from outstanding European lift manufacturers
- MRL or Machine Room
- Variety of car interiors selection available
- Car with full height stainless steel COPs and robust pushes
- TFT or Dot-matrix position indicators
- LED or Fluorescent lighting
- DDA compliant lifts (optional)
- Built-in on board modem for remote support
- Equipped with Talinor control panel
- Quick commissioning and support directly from Talinor
- After sales support and advice with rapid response time
- Lifts incorporate Talinor control panels and Talinor equipment
- Wiring – all plug and play, serial or parallel
- Lifts come with on board Modem for remote support
- Powerful fault finding software
- Standard low cost lifts are available

Every lift project is handled from order to supply by Talinor's specialist lift engineer team, and undergoes strict quality assurance control to ensure you get what you want.

OUR COMPLETE LIFT CONTROLLERS

- The lift controller is manufactured by Talinor
 - Powerful fault finding software
 - Fault logger and I/O loggers
 - 32-bit microprocessor
 - High quality switch gear components from European makers
 - Electronic boards manufactured in house
 - In house software development
 - Built-in on board modem
-
- Our controllers comply with EN81-1+A3, EN81-2+A3, EMC EN12015, EMC EN12016 and CE Type-Examination.

OUR TECHNICAL SUPPORT

- Extensive Technical Support
- Rapid response time
- Remote fault analysis by specialist engineers to assist site engineers
- Support during lift commissioning directly by Talinor
- After sales support and advice
- Spare parts and software upgrade
